Composition ratio

Net Sales Breakdown by Industry : 1. Electronics and Semiconductor (Include Electroplated Diamond Wire)

Semiconductor and Electronic Component

Sales increased due to strong demand for compound semiconductors for electrification of automobiles and power saving.

FPD

Sales decreased due to lower production at major customers in Japan and overseas.

Wire Drawing Die

Overseas sales decreased due to lockdown in Shanghai.

Electrodeposited Diamond Wire

Sales for semiconductor applications increased, but other applications were sluggish. Overall sales decreased.

Net Sales Breakdown by Industry : 2. Transportation

Automobile

Although affected by production fluctuations due to parts shortages, Production recovered, albeit slowly, and sales of related tools increased slightly.

Aircraft

Movement restrictions and other restrictions implemented in each country was relaxed, Sales of related tools increased due to recovery in demand for aircraft.

Net Sales Breakdown by Industry : 3. Machinery

Bearing, Cemented Carbide Tool

Sales of related tools increased slightly due to stagnation in production of transportation equipment such as automobiles and general machinery parts.

Machine Tool

Sales increased due to recognition of quality improvement of special tools.

Net Sales Breakdown by Industry : 4. Stone and Construction

Resource Exploration

Sales increased due to steady overseas orders.

Construction in Japan

Because of measures such as expressway repair work and national resilience, Sales of related tools increased due to steady growth in road construction and demolition work.

Commercial Product (Portable Cutter)

Sales decreased due to sluggish overseas demand.
