Asahi Diamond Industrial Co., Ltd. (the "Company") hereby announces that a decision was passed at the meeting of the Board of Directors held today, to revise the First Half consolidated earnings forecast for the fiscal year ending March 31, 2026 (April 1, 2025 through September 30, 2025), announced on May 15, 2025. The details are described below.

(Reference) YoY results (First Half of FY2024)	20,688	1,299	1,628	1,129	21.90

2. Reason for revision

In the first quarter of the fiscal year ending March 31, 2026, sales of our tools in the Japanese electronics and semiconductor industries, the machinery industry, and the Chinese electronics and semiconductor industries exceeded initial expectations, resulting in net sales and profits exceeding the previously announced forecasts.

In addition, interim net income attributable to owners of parent includes the impact of the gain on sales of fixed assets, which was scheduled for the second half, being brought forward.

As the market environment and other factors remain uncertain at this time, the full-year consolidated earnings forecast announced on May 15, 2025, has been left unchanged.

3. Dividend forecasts

There are no changes to the dividend forecasts.

Note: The above forecasts are based on information currently available to the Company and certain assumptions that the Company believes are reasonable. Actual results may differ from these forecasts due to various factors.
